

## About More Vacation Rentals

OK - another vacation rental web site! so what?? I know what you're thinking there are loads of them out there on the web and all they want is for me to sign up with them and pay them and then I get nothing back. Well actually, its not quite like that here...

More Vacation Rentals is one of several web sites that are used to market our clients vacation rental properties to internet customers.

And it goes a lot deeper than that! As vacation rental owners we recognise that it is essential that you have a broad marketing strategy. For us, that includes marketing locally. We market to the general public here in the UK through our network of offices in the south east. This gives us exposure to thousands and thousands of people every week through their visits to our office and our newspaper advertising in addition to our internet presence.

And it works! Better still, we get a better than average rent from our 'walk-in' clients. Yes, we have to train our staff to know the product and we do that during their annual trips to Orlando so they get to feel, touch and experience life in a vacation rental but it pays off handsomely! So if you'd like to join us, drop us a line here! Read all about our vacation rental marketing services here!
